

PROGRAMME OF EDUCATION

FACULTY OF COMPUTER SCIENCE AND MANAGEMENT

MAIN FIELD OF STUDY: MANAGEMENT

Area of Knowledge / Education: **SOCIAL SCIENCES**, Area of science: **ECONOMIC SCIENCES**,

Scientific disciplines: **MANAGEMENT SCIENCE, FINANCE, ECONOMICS**

EDUCATION LEVEL: 2nd level, magister studies

FORM OF STUDIES: full-time

PROFILE: general academic

SPECIALIZATION Business Information Systems (BIS)

LANGUAGE OF STUDY: English

Content:

1. Assumed educational effects defined for main field of study – attachment no. 1
2. Assumed educational effects defined for specialization – attachment no. 2
3. Programme of studies – attachment no. 3
4. Plan of studies – attachment no. 4
5. Matrix of correlation between area educational effects and main-field-of-study educational effects – attachment no. 5

Faculty Council Resolution of 25.04.2017

In effect since 1.10.2017

PROGRAMME OF STUDIES

1. Description

<i>Number of semesters:</i> 4	<i>Number ECTS points necessary to obtain qualifications:</i> 120
<p><i>Prerequisites (particularly for second-level studies):</i></p> <p>Graduate at least of first-level studies (bachelor program).</p> <p><i>According to the resolution No. 969 / 41 / 2012-2016 of PWr Senate. from 29 April 2016</i></p>	<p><i>Upon completion of studies graduate obtains</i></p> <p><i>professional degree of: Master of Science (magister)</i></p> <p><i>2nd level qualifications</i></p>
<p><i>Possibility of continuing studies: third-level studies, doctoral studies.</i></p>	<p><i>Graduate profile, employability:</i></p> <p>A masters graduate possesses advanced specialist knowledge in the field of management sciences in the following areas: analytical models and methods, integrated information systems and, in particular, contemporary concepts and methods in managing, planning and monitoring the results of the activities of an enterprise, together with the functioning, development and strategical renewal of organizations. A masters graduate is characterized by the ability to think abstractly and a critical approach to theory, which enables him/her to identify, describe, analyze and interpret the complex processes and problems of a firm and its surroundings. He/she is in possession of the ability to integrate knowledge from various disciplines (economics, psychology, law) and apply computer and mathematical tools to carry out a full</p>

Indicate connection with University's mission and its development strategy:

Courses in Management are carried out within the Faculty of Computer Science and Management at Wrocław University of Science and Technology. Although, such a subject lies in the field of social science, it lies directly within the mission and development strategy of a technical university.

The educational program in Management is coherent with the mission of Wrocław University of Science and Technology in the following areas:

- Developing creative, critical and tolerant graduates, as studying a course in management develops these traits;
- Aiming to provide high quality courses and providing the students of Management and lecturers of the Institute of Organization and Management with conditions enabling open discussion and constructive criticism;
- Developing the values and tradition of higher education, wide-ranging cooperation with other universities via students taking part in the Erasmus program and with employers via practical learning, carried out in the form of projects in specific organizations;
- Aiming to make an impact on the national and international scene in the area of educating specialists in the field of management.

The development plan of the department is in line with the strategy of the university as a whole. In particular, the department "...connects theoretical,

research and specialist abilities with educational and teaching skills. The department is a leading research and teaching center in Poland and an important center on the international scene. Its teaching and research profile, together with the quality of the courses and research carried out in economics and technical science, ensures it an appropriately high position in national and international rankings". Teaching courses in management is one of the long standing elements in the department's development strategy. In accordance with the decisions made at Wrocław University of Technology, our courses in management have an interdisciplinary nature. The program satisfies all the conditions stipulated in current legislation and is also in accordance with the National Educational Plan in the field of social science. In line with the university's strategy, in order to increase the attractiveness of our courses on the educational market, our programs in management have a unique character, since they make use of the natural - in business practice - complementarity of technical science and economics, enriched with the element of computer science. In accordance with the university's strategy and the department's development plan, which indicates the need for interaction with the region and its economy, the institute has created a framework which ensures that students have systematic contact with enterprises and other institutions during their studies.

In line with the university's development strategy, the quality of our courses is being improved in all aspects. This is achieved through the development of our lecturers' research and teaching skills, as well as systematic refurbishment of the department's infrastructure, including

<p>modernization of lecture theaters, audio-visual equipment and computer laboratories.</p>	
<p>The program of masters studies in management develops the theoretical knowledge and practical skills of students, enabling graduates to be highly competitiveness on the employment market. Graduates are able to undertake doctoral studies and carry out their own research. They also are conscious of the need for constant self-development in cooperation with their alma mater.</p>	

2. Fields of science and scientific disciplines to which educational effects apply:

Area of Knowledge / Education: **SOCIAL SCIENCES**

Area of science: **ECONOMIC SCIENCES**

Scientific disciplines: **MANAGEMENT SCIENCE, FINANCE**

3. Concise analysis of consistency between assumed educational effects and labour market needs

The educational goals of our masters studies satisfy the following needs of employers on the job market:

- The need for employees to understand the functioning of an enterprise from a strategical perspective and, in particular, to assess and improve a firm's competitive and value (medium-sized and large enterprises);
- The ability to work independently, as well as to play various roles in a team including diagnosing problems, designing and implementing solutions in various functional areas of an enterprise - as appropriate to the graduate's speciality (medium-sized and large enterprises);
- Seeing the need for innovative methods and techniques for management and computer tools, as well as designing or choosing and implementing them;
- The ability to learn and share knowledge with others, as well as creativeness and openness to innovations.

These specific effects answer the need for specialists/managers in IT departments working on the maintenance/development of computer software aiding management at the strategic and operational levels of enterprises and other organizations carrying out production, trade, services or research activities.

⁷ Optional – enter W, obligatory – enter Ob

	modern presentation technology
laboratory	Technical report or test
project	Written report documenting the diagnosis and solution of a problem, spoken presentation of the project with questions.
seminar	Choice and formulation of a problem/theme; activeness in discussions, written report in an academic style, essay, “mini”-monograph. Spoken presentations using modern presentation technology
work placement	Written report on the work practice given by the student's placement supervisor, confirmation of the completion and nature of the work placement by the employer
diploma thesis	Written report satisfying the current regulations for diploma theses, assessed by the supervisor and a reviewer using an appropriate form.
diploma examination	Spoken presentation of the results of the diploma thesis, answers to questions given by the examination committee, spoken answers to randomly chosen questions from the set appearing in the program of studies.

6. Total number of ECTS points, which student has to obtain from classes requiring direct academic teacher-student contact (enter total of ECTS points for courses/groups of courses denoted with code BK¹)

.....**120** . ECTS

7. Total number of ECTS points, which student has to obtain from basic sciences classes

Number of ECTS points for obligatory subjects	24
Number of ECTS points for optional subjects	0
Total number of ECTS points	24

¹BK – number of ECTS points assigned to hours of classes requiring direct contact of teachers with students

²Traditional – enter T, remote – enter Z

³Exam – enter E, crediting – enter Z. For the group of courses – after the letter E or Z - enter in brackets the final course form (lec, cl, lab, pr, sem)

⁴University-wide course /group of courses – enter O

⁵Practical course / group of courses – enter P. For the group of courses – in brackets enter the number of ECTS points assigned to practical courses

⁶ KO – general education, PD – basic sciences, K – field-of-studies, S – specialization

⁷ Optional – enter W, obligatory – enter Ob

8. Total number of ECTS points, which student has to obtain from practical classes, including laboratory classes (enter total number of ECTS points for courses/group of courses denoted with code P)

Number of ECTS points for obligatory subjects	64
Number of ECTS points for optional subjects	0
Total number of ECTS points	64

9. Minimum number of ECTS points, which student has to obtain doing education modules offered as part of university-wide classes or other main field of study (enter number of ECTS points for courses/groups of courses denoted with code OG)

3..... ECTS points

10. Total number of ECTS points, which student may obtain doing optional modules (min. 30% of total number of ECTS points)

...26.... ECTS points

11. Range of diploma dissertation

1. What kind of data a company may collect and what statistical tools can be used for analysing them? (Business Data Analysis)
2. Methods of business process modeling. (Business Process Modeling)
3. Significance: its place and role in statistics. (Business Statistics)
4. Point to the basic types of legally protected information (Legal protection of information)
5. List and discuss the categories referred to as intellectual property. Explain the concept of commercialization of knowledge (Legal protection and commercialization of knowledge)
6. Data mining methods and applications. (Data mining)
7. Describe the minimum cost flow problem and show some of its applications. (Discrete Optimization and Network Flows)
8. Essence of Gauss-Markov's assumptions in econometrical modeling. (Econometrics)
9. E-government and its importance for citizens. (e-Economy)
10. Functioning and a structure of the Enterprise Management System (Contemporary Management)

¹BK – number of ECTS points assigned to hours of classes requiring direct contact of teachers with students

²Traditional – enter T, remote – enter Z

³Exam – enter E, crediting – enter Z. For the group of courses – after the letter E or Z - enter in brackets the final course form (lec, cl, lab, pr, sem)

⁴University-wide course /group of courses – enter O

⁵Practical course / group of courses – enter P. For the group of courses – in brackets enter the number of ECTS points assigned to practical courses

⁶ KO – general education, PD – basic sciences, K – field-of-studies, S – specialization

⁷ Optional – enter W, obligatory – enter Ob

11. Describe the concept of equilibrium in game theory (Games and Decisions in Management)
12. Methods for gathering organizational information requirements (Information Systems Analysis)
13. What are the features, advantages and disadvantages of various dynamic web content platforms? (Internet Information Services and Systems)
14. Explain the concept of Just - in - Time.(Logistics Management Tools)
15. Models of economic growth (Macroeconomic modeling)
16. Ethical aspect of business activity (Management Ethics)
17. General characteristics of management information system sets (Management Information Systems)
18. Describe the reference framework concepts for the information system model, which consists of two main components: the structure model (ERD) and the process model (HFD, DFD). (Management Information Systems Modeling)
19. How Cost-Volume-Profit Analysis supports decision making - explain using examples (Managerial Accounting)
20. Business architecture and UML application in modeling it. (Business Object Modeling)
21. Applications of linear programming and integer programming models. Solving linear programming and integer programming problems (Operations Research)
22. Main psychological factors influencing human performance at work (Organizational Psychology)
23. What are the differences between process oriented and functional organizations? (Process Management)
24. Describe the Porter's model of strategy (Strategic Management)

12. Requirements concerning deadlines for crediting courses/groups of courses for all courses in particular modules – no requirements

<i>No.</i>	<i>Course code</i>	<i>Name of course</i>	<i>Crediting by deadline of... (number of semester)</i>

¹BK – number of ECTS points assigned to hours of classes requiring direct contact of teachers with students

²Traditional – enter T, remote – enter Z

³Exam – enter E, crediting – enter Z. For the group of courses – after the letter E or Z - enter in brackets the final course form (lec, cl, lab, pr, sem)

⁴University-wide course /group of courses – enter O

⁵Practical course / group of courses – enter P. For the group of courses – in brackets enter the number of ECTS points assigned to practical courses

⁶ KO – general education, PD – basic sciences, K – field-of-studies, S – specialization

⁷ Optional – enter W, obligatory – enter Ob

13. Plan of studies (attachment no. 4.....)

Approved by faculty student government legislative body:

.....
Date, name and surname, signature of student representative

.....
Date, Dean's signature

¹BK – number of ECTS points assigned to hours of classes requiring direct contact of teachers with students

²Traditional – enter T, remote – enter Z

³Exam – enter E, crediting – enter Z. For the group of courses – after the letter E or Z - enter in brackets the final course form (lec, cl, lab, pr, sem)

⁴University-wide course /group of courses – enter O

⁵Practical course / group of courses – enter P. For the group of courses – in brackets enter the number of ECTS points assigned to practical courses

⁶ KO – general education, PD – basic sciences, K – field-of-studies, S – specialization

⁷ Optional – enter W, obligatory – enter Ob
